

### TX900-TXA-800-23cm Fiberglas Antenna

Electronic data

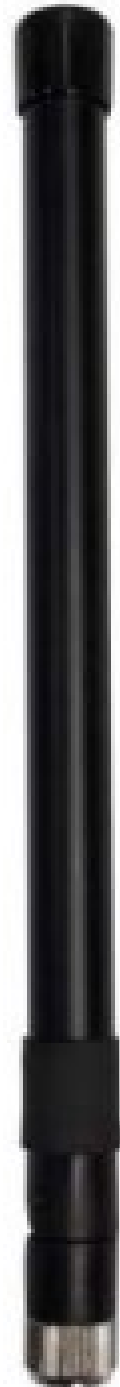

|                   |                  |
|-------------------|------------------|
| Frequency Range   | 806~825MHz       |
| VSWR              | <2               |
| Efficiency        | >70%             |
| Gain              | 2.3dBi           |
| Impedance         | 50Ω              |
| Polarization      | Linear           |
| Radiation Pattern | Omni-directional |

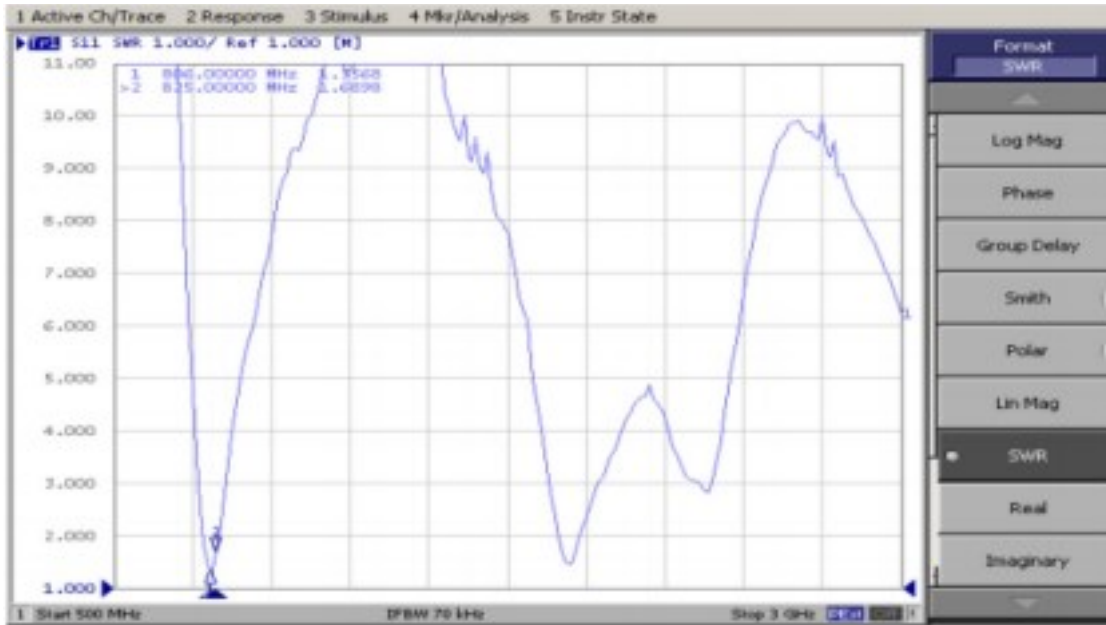

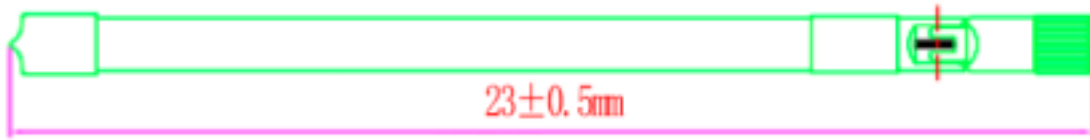

Mechanical data

|                 |           |
|-----------------|-----------|
| Dimension       | Φ15*230mm |
| Antenna Color   | black     |
| Radome Material | Fiberglas |
| Weight          | 42g       |
| Connector Type  | SMA-J     |

Environmental data

|                       |               |
|-----------------------|---------------|
| Operation Temperature | -40°C to 85°C |
| Storage Temperature   | -40°C to 85°C |
| Water proof           | N/A           |
| Dust proof            | N/A           |
| Anti-corrosion        | N/A           |
| RoHs Compliant        | Yes           |

810.000MHz
